

LAZADA SELLER FLEET / SELLER POS LAJU

BEFORE YOU START DROPSHIPPING ON LAZADA, FOLLOW THESE IMPORTANT STEPS

Step 1: Active your Lazada "seller fleet"

As you may already know Lazada requires sellers to use their appointed shipping providers like GDEX, Poslaju, Skynet etc. How should you manage the courier consignment notes and tracking ID if you are dropshipping from Kumoten to Lazada?

The good news is we have a solution with Lazada. When you dropship with Kumoten, you can use Kumoten's own shipping provider. You do not have to print any consignment note from Lazada, we will take care of that.

Once you have your Lazada store activated, please Email (<u>support@kumoten.com</u>) or Whatsapp us (0193310990) us the following details:

1. Your name.

- 2. Your contact details
- 3. Your Lazada Store URL
- 4. Your Lazada Seller ID
- 5. Your Unicart URL
- 6. Your Kumoten username

We will activate a special shipping provider for you.

Step 2: Seller fleet Activation status.

(1) Go to "**Profile**".

2 Click Shipping

Note:

"when the seller fleet is active the status will mention enabled"

SELLER FLEET VS SELLER POS LAJU

What is **"Seller Pos Laju"**?

- Seller Pos Laju refers to the last mile delivery is completed by Pos Laju.
- In most cases, you should choose "Seller Pos Laju" when updating "Ready-To-Ship" with the tracking ID provided by Kumoten.
- If the tracking ID can be tracked on <u>https://www.poslaju.com.my/track-trace-v2/</u> after 3-4 working days, then select "Seller Pos Laju" otherwise, select "Seller Fleet".
- This option automatically updates Lazada on the delivery status. And once item reaches buyer, it will automatically update status to delivered.

What is "Seller Fleet" ?

- If the tracking cannot be tracked on PosLaju tracking website after 4 working days, very likely the delivery is done by other courier service providers.
- This does not happen very often unless the item are sensitive items such as batteries.
- Select "Sellect Fleet" if you see the tracking URL in Kumoten is NOT <u>https://www.lwe.asia/tracking</u>.
- After you have updated Ready-To-Ship using Seller Fleet option,

HOW TO KNOW WHEN TO USE SELLER FLEET?

Step 1: Check the update "Tracking Number".

1 Go to your order.

Copy the tracking number and track the tracking number at "shipment company" url given.
